But as the parties in the house were pretty equally balanced, the parliament dissolved, and an appeal to the Country was made. A majority being returned in its favour it passed the Commons but was rejected by the Peers. This led to riots in different parts of the Country (Chiefly at Bristol) and serious damage was done. Up to 1838 there were laws against the importation of corn and heavy duty had been imposed on it. Cobden, Bright & Peel were the leaders of the reform party. Agitation followed all over the Country. The Free traders urged that the daily bread of the people was the last thing to be taxed; and those engaged in agriculture wished to keep foreign grain out of the market. 1854. Crimean War - For years a dispute about the Holy Places at Jerusalem had been going on between Russia & Turkey. Suddenly Russia pushed her troops into Moldavia, which, with Wallachia, she picked to hold as a guarantee that Turkey would make no attempt to regain the Holy Places. This made Turkey declare war. England & France assisted Turkey, and their united fleets entered the Black Sea.
War was declared on March 28th 1854
Odessa was bombarded.
Russians driven from Silistria by Turks.

1854. Alma. Russians defeated by Marshal St. Arnaud & Lord Raglan and forced back on Sebastopol.

Sebastopol. Behind this city was Balaclava, where the Eng. ships and stores were. The place was first bombarded by land and sea, but the place was well nigh impregnable. The Russians next attacked us at Balaclava, but were repulsed (Charge of Light Brigade).

Inkermann. In the dusk of a November morning 60. 000 Russians, concealed by a fog, crossed up a hill towards the English lines. On Sandbag battery, near the Lite-gun battery, was the centre of the fight. Here the Grenadiers & Scotch held all day against the enemy. In this battle there was no plan (no time), and it was decidedly the bravery of the soldiers rather than the strategy of the Generals that won the day. 8.000 English & 6.000 French kept the 60.000 Russians from taking Inkermann.

During the Winter troops suffered from want of food & shelter although ships full of stores lay in Balaclava Harbour. A motion in the House of Com. that the Govt. mismanaging the war was passed. Earl of Aberdeen then resigned & Lord Palmerston became premier. Then active measures were taken. A railway was made from Balaclava to the camp, and supplies were speedily sent forward. By Electric wire passed from the Crimea, under the Black Sea, to Varna & thence to London. War Correspondents accompanied the troops for the first time.

1855. The earthworks of Sebastopol were forced at last. The French took Mamelon & Malakoff towers, and the British the Redan. The latter were forced by the Russians to retreat again. The Russian force then retreated and sank their ships. All the batteries & dockyards at Sebastopol were blown up by the Allies, and the place was left in ruins.
